Service Call: Excessive shaking and noise during travel.

Technician arrived on site and located unit. Inspected and found drive tire condition is good. Found excessive movement in drive unit while removing and installing drive tire for inspection. Found fine metallic shavings around the top/outside of drive unit. Unit need drive unit/steer bearing replaced. Notified customer of findings. Customer declined repairs at this time. Returned unit to customer.

Completed Angel S. on 12/01/2022
